

I am writing to you regarding the benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I am respectfully urging the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

Please feel free to contact me if you have any additional questions. I subscribed to XM specifically to receive this kind of content which is not available elsewhere.
